Data Retention Policy

1 Introduction

Isle Education Trust (IET) recognises that the efficient management of its records is necessary to comply with its legal and regulatory obligations and to contribute to the effective overall management of the Trust/Academies. This document provides the policy framework through which this effective management can be achieved and audited.

2 Scope of the Policy

This policy applies to all records created, received or maintained by staff at the Trust/Academies in the course of carrying out its functions.

Records are defined as all those documents which facilitate the business carried out by the Trust/Academies and which are thereafter retained (for a set period) to provide evidence of its transactions or activities. These records may be created, received or maintained in hard copy or electronically.

A small percentage of the Trust/Academies records will be selected for permanent preservation as part of the institution's archives and for historical research.

3 Responsibilities

The Trust has a corporate responsibility to maintain its records and record keeping systems in accordance with the regulatory environment. The CEO has overall responsibility for this policy.

The person responsible for records management in the Trust and Academies will give guidance for good records management practice and will promote compliance with this policy so that information will be retrieved easily, appropriately and timely.

Individual staff and employees must ensure that records for which they are responsible are accurate and are maintained and disposed of in accordance with the Trust records management guidelines.

4 Relationship with Existing Policies

This policy has been drawn up within the context of:

- IET Freedom of Information Policy.
- IET GDPR Data Protection Policy
- and with other legislation or regulations (including audit, equal opportunities and ethics) affecting the Trust.

Data Retention Policy

5 Safe Disposal of Records

Where records have been identified for destruction they should be disposed of in an appropriate way.

IET provide confidential waste bins to ensure that records can be disposed of in an appropriate way. All records containing personal information, or sensitive policy information should be placed in these specific bins. Advice can be sought from the CF&OO if clarity is required. Please note that the data placed in these bins is shredded by a licensed company.

Such records should not be placed in the dustbin or a skip.

The Freedom of Information Act 2000 requires the Trust to maintain a list of records which have been destroyed and who authorised their destruction.

For academy based data these lists should be maintained at Academy level and owned by the Principal.

For central data such as payroll the CF&OO will maintain a record.

Members of staff should record at least:

- File reference (or another unique identifier).
- File title (or brief description) and number of files.
- The name of the authorising officer and the date action taken.

This should be kept in an Excel spreadsheet or similar suitable format.

For soft copies of information files can be deleted on the Microsoft system by individuals for their own One Drive. For the tables below the word SHRED equates to delete.

For any information held in SharePoint you should check that no one else needs to use the data and then delete in line with policy.

The IT team ensure that any hard drives are destroyed and that data is inaccessible before disposal of any devices.

6 Transfer of Information

Where lengthy retention periods have been allocated to records, members of staff may wish to consider converting paper records to other media. The lifespan of the media and the ability to migrate data where necessary should always be considered.

Data Retention Policy

7 Trust/Academy Closures

Should the Trust/Academies close there will be records which will need to be stored until they work out their statutory retention periods.

It is the responsibility of the Trust to manage these records until they have reached the end of their administrative life and to arrange for their disposal when appropriate. There may be a number of different reasons why an Academy has closed and this may affect where the records need to be stored.

- If the Academy has been closed and the site is being sold or reallocated to other use, then the Trust should take responsibility for the records from the date of closure
- If two academies have merged onto one site and then function as one Academy, it is sensible to retain all the records relating to the two academies on the one site.

8 Retention Guidelines

The following retention guidelines have been issued by the Management Society of Great Britain 'Retention Guidelines for Schools'. Some of the retention periods are governed by statute. Others are guidelines following best practice. Every effort has been made to ensure that these retention periods are compliant with the requirements of data protection and GDPR requirements.

Child Protection					
Basic file description	Data Protection Issues	Statutory Provisions	Retention Period	Action at the end of the administrative life of the record	
Child Protection files	Yes	Education Act 2002, related guidance "Safeguarding Children in Education", September 2004	Date of leaving + 25 years	Shred	Child Protection information must be copied and sent under separate cover to new school/college whilst the child is still under 18 (the information does not need to be sent to a university) Where a child is removed from roll to be educated at home, the file should be copied to the Local Authority.
Allegation of a child protection nature against a member of staff, including where the allegation is unfounded	Yes	Employment Practices Code: Supplementary Guidance 2.13.1 (Records of Disciplinary and Grievance) Education Act 2002 guidance "Dealing with Allegations of Abuse against Teachers and Other Staff" November 2005	Until the person's normal retirement age, or 10 years from the date of the allegation whichever is the longer	Shred	The following is an extract from "Safeguarding Children and Safer Recruitment in Education" p60: "Record Keeping 5.10 It is important that a clear and comprehensive summary of any allegations made, details of how the allegation was followed up and resolved, and a note of any action taken and decisions reached, is kept on a person's confidential personnel file, and a copy provided to the person concerned. The purpose of the record is to enable accurate information to be given in response to any future request for a reference if the person has moved on. It will provide clarification in cases where a future DBS Disclosure reveals information from the police about an allegation that did not result in a criminal conviction. And it will help to prevent unnecessary reinvestigation if, as sometimes happens, an allegation re-surfaces after a period of time. The record should be retained at least until the person has reached normal retirement age or for a period of 10 years from the date of the allegation if that is longer."
